**DETAILED ACTION****REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:

Regarding claims 1 and 3, the prior art fails to teach a failure diagnosis switch unit wherein a PNP transistor having a collector connected via a first resistor between the plus terminal of the battery and the drain of the second field-effect transistor; second resistors and an NPN transistor connected in series between the plus terminal of the battery and ground; and third resistors connected in series between the switch control unit and ground, wherein a connection point of the second resistors is connected to a base of the PNP transistor and a connection point of the third resistors is connected to a base of the NPN transistor in combination with the other limitations recited in the claims.

Regarding claims 4-8, the prior art fails to teach a switch control unit controlling switching between conduction and shutoff of the first field-effect transistor, the second field-effect transistor, the third field-effect transistor, and the failure diagnosis switch unit, wherein the switch control unit diagnoses a failure of the second field-effect transistor in combination with the other limitations recited in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Terrence R. Willoughby whose telephone number is 571-272-2725. The examiner can normally be reached on 8-5pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Brian Sircus can be reached on 571-272-2058. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
